Mr. Alvord gave notice that on Monday next, if there were no quorum present, he should move a call of the Convention. This will make lively work for the Sergeant-at-Arms and his assistant, as well as for the members. Delegates may read and govern themselves accordingly. The following vote upon the final motion to adjourn for the day, is of interest as showing the number present and absent; yet it had been generally conceded on adjourning yesterday, that nothing would be done to-day, being Saturday.

We regret to learn that the Hon Samuel Galloway declines to accept the Union nomination for Lieutenant-Governor. The duty of filling the vacancy devolves upon the State Central Committee, who are under implied obligations to make the nomination from the candidates before the Convention. The Hon. Heavy Kessler's name is added to the list of candidates for Congress, to succeed Gen Hayes, in the Second District of Ohio. The Copperheads propose to have the Hon. Wm. S. Groesbeck brought out as an independent candidate.

RECONSTRUCTION. ALABAMA.

ALBANY, Saturday, June 29, 1867.

BY TREEGRAPH TO THE TRIBUNE. Annapolis, Md., June 29.-The Presidential party grived here this morning by steamer, accompanied by Gov. Swann and staff, the Committee of the Maryland Constitutional Convention, and some of the most promi-ment citizens of Maryland. A band of music was on ard, which played during the trip. On arriving at Annapolis a salute was fired from a naval school-ship and also from a common on shore. The President and Secretary Seward were greeted with cheers as they entered their carriages. The party was at once escorted to the chamber in the Capitol where the Constitutional Conven-tion was in session. It was densely crowded with ladies

memory. [Applause.] I repeat, I do hope and be."eve an era of good feeling has commenced. Let us all exdeavor to feel better and kinder toward one another. [Applause.] I am satisfied if the North and South were brought into closer intumacies there would be a better feeling, for the friction would round the sharp corners and remove the asperity which now exists. Let us try to be one-people, and go on and fulfill our noble destiny, and I trust after the difficulties through which we have just passed a beneficent Providence will insure for us a more permanent existence of our free government. I am not willing to admit that this nation has completed its mission. We are extending our possessions and power, and though some may be opposed to the extension of our jurisdiction, yet, in my honest conviction, the great principle of government, instead of being too weak, as some contend, to cover a greater area, would, if properly carried out, be strong enough to embrace within its sphere and influence the whole civilized world. (Great applicate.) We have tried too much to make the public mind assume the direction of invention. There is a difference between invention and discovery. We have been making too much law. If we cease to invent and direct the mind to discovery and ascertaining what law is, and conform our action to it, the world, I am sure, would move in more harmonious motion. The North and the South can work in harmony with the Federal Government—the parts are essential to the whole, and the whole is essential to the several parts. Without law the machinery will not work smoothly and accomplish the great ends which it was assigned to attain. Pardon me, friends, for trespassing thus long on your patience, and permit me to conclude by repeating that yor and the Governor of the State, the members of the Convention, their committee, and all that you represent, have my sincere thanks and gratitude for the welcome which has been extended to me on the occasion of my visit to the capital of Maryland.

APPEAL OF COLORED CITIZENS FOR THEIR RIGHTS. MONTGOMERY, Ala., June 30.-L. S. Berry, first

Vice-President of the late Ecpublican State Convention, and eight other colored met of Mobile, have addressed an appeal to Gen. Swayne, setting forth the condition of an appeal to Gen. Swayne, selling forth the condition of the colored people of Mobile, politically and otherwise. They declare they are denied rights in courts, and many odious provisions of the State code, to all intents, remain in full force to their oppression. The Civil Reghts bill has secured no practical good to be colored race, and is a dead letter. The Grand Jury has refused to indict per-sure for its violation in forcibly ejecting blacks from street cars. The courts amond them no request without military aid, and they are without redress for obtaining

CONSPIRACY TO DEFRAUD INSURANCE COM-PARIES.

Sr. Louis, June 30 .- An investigation into the reported robbery of the scamer F. W. Brooks, at the levee, on Sunday morning last, of \$5,000, has disclosed the fact that the owners, Henry A. Huffner and W. A. the fact that the owners, Henry A. Huffner and W. A. Ritter, and her captain, J. A. Johnson, had entered into a conspiracy to rob and burn the boat and defraud the insurance companies. All the parties have been arrested, and \$6,55 of the stolen money recovered. Johnson and Ritter have confessed their connection with the affair. The scheme originated with Huffner, who was to buy goods on credit, load the boat with them for which Johnson was captain and Ritter clerk), take them up the Arkansas River, sell them for what they could get, rob the boat of the proceeds of the trip, set her on fire, and then get the insurance. The boat was insured for \$6,000, and the money on hand for \$10,000. On the passage from Cairo to this port, the boat was ired in the clerk's office, but the flames were extinguished by the crew. All the parties concerned have heretofore borne good reputations. THE INDIAN WAR.

W PRESIDENT PROTEM .- THE QUESTION G,V A TEM-BREECH-LOADING ARMS FOR RAILROAD WORKMEN-PORARY ADJOURNMENT-THE SUFFRAGE QUES-REPORTED DEFEAT AND DEATH OF GEN. CUSTER.

St. Louis, June 30.—The Secretary of War has authorized the issue of 1,000 breech-loading arms and 50,000 cartridges from the Leavenworth Arsenal, to the Union Pacific Railroad Company, Kansas Branch, to enable their engineers and working parties to protect themselves against the Indian attacks. The Company have received 506 Spencer rifles for the same purpose. A report was current at Fort Harker last week, that 6en, Custer, with a small body of cavairy, had been overpowered by a large force of Indians, and the General killed. The report is not well authenticated, but some credence is placed in it on account of so little having been heard of Custer's command for some time. Omaha dispatches say the case of Kometz Brothers, bankers, agt. The American Express Company, a claim for lost treasure captured by the Indians two years ago, was argued before the United States Circuit Courl yesterday. Considerable trouble exists at Jalesburg between the old settlers of that town and the Union Pacific Railroad Company, in consequence of the latter trying to occupy lands squatted upon by the former. The squatters refuse to vacate the lauds.

FIVE THOUSAND SHOUX IN THE NEIGHBORHOOD OF Sr. Louis, June 30 .- The Secretary of War has auquorum present, and the President, therefore, decided that they were unable to reseind the resolution that keeps them in session until Wednesday next. There was on one side a fear expressed that the members would be charged with a practical evasion of the law which allows them no pay in case of an adjournment beyond three days; and, on the other hand, some were desirous that the Convention should not become wholly disintegrated for so long a period. The absences received their share of censure from both sides.

Mr. Alvord gave notice that on Monday next, if there were no quorum present, he should move a call of the FIVE THOUSAND SIGUX IN THE NEIGHBORHOOD OF

BLACK HILLS—THE BLACK HILLS EXPEDITION ARANDONED—THE ATROCITIES OF SAND CREEK

JUNCTION CUT OFF, 80 MILES FROM DENVER, }

Five thousand Sioux are encamped on the Eastern slopes of the the Black Hills, immediately on the proposed route of the prospecting expedition, who declare positively that no white men shall come or enter that country without war. For that reason it has been deemed expedient to abandon the proposed expedition for the present, till a more favorable period. The military order from Lieut. Gen. Sherman, transmitted to Major-Gen. A. S. Terry, Commanding Department of Dakota, likewise forbids any organized expedition to that country at present. "All white people are forbid going there at present. All who go there in spite of this prohibition will not receive the protection of the United States, unless public notice is given that the Indian title to that country is extinguished." The promulgation of this order has broken it up, but there are many of the people who entered into this enterprise in favor of going at all hazards, and of adopting the policy of Col. Sawyers, who, though prohibited from going with his wagon road expedition, prepared for self-protection. The Sioux Indians, who have interposed themselves in the way of the expedition, prepared for self-protection. The Sioux Indians, who have interposed themselves in the way of the expedition, possess a targe quantity of stock recently captured. Some of the animals are branded U.S., some O.T. & Co., and some W.F. & Co., all bearing mark of having lately been in harness. Thus the expedition, from which many important discoveries in the interior of Western Dakota were expected, is for the prosent at least a failure. Whenever the military authorities are able to furnish the necessary force for the protection of the company, I have no doubt the journey will be undertaken.

The Ufes in the vicinity of Cherry Creek are not on good terms with the white settlers in that region. They are inscient and overbearing, going about declaring themselves Cheyennes and Sloux. A bad feeling is created Five thousand Sioux are encamped on the Eastern

It was understood by the whites that Major Oakes was to have furmished the Ute Indians in the Rocky Mountains with badges and medals to distinguish them from other tribes. The consequence is that those of that nation having none are looked upon with suspicion, and serious trouble is anticipated. The farmers are arming themselves, and seemed prepared for an attack, which they conceive is meditated on them. If disturbances break out Sand Creek will be re-enacted with all the horrible and atroclous accompaniments. Gen J. H. Fotter and Capt. Mix. with Cally, have been absent four days scouting in all directions. They saw but few fainans. A portion only of this party go through with Gen. Dodge. Gen. Augur joins Rawlins and Dodge at the eastern base of the Rocky Mountains. Major-Gen. Augur has established three new posts—one on the La Prete, to be garrisoned by one company of infantry; one at the base of the Black Hills, to be garrisoned by 1,200 soldiers, because of the proximity of a large number of Sioux, apparently hostile, and the third is to be built on Pole Creek, to be garrisoned by two companies. The Pawnee scouts are doing excellent service in driving back the Indians from the Faliread, thus keeping this important highway clear. No late news of Indian deprecations in the immediate neighborhood of the Union Pacific.

A CHILD RAVISHED AND MURDERED. A CHILD RAVISHED AND MURDERED.

The quiet village of Fairfield, in Greene County, Ohlo, was thrown into a wild state of excitement on Wednesday night, the 26th inst., by the ravishment and murder of a little girl of eight years, the daughter of Mr. Joseph F. Knelsly. Her body was discovered in a stable on the premises of Mr. Johnson, at whose house she had last been seen. Her body was in a sitting posture, the lower limbs cramped. She was rigid and cold, having been dead apparently about four hours. Her neck bore evident marks of strangulation, and also the imprint of a bite, the teeth-marks being peculiar and plainly visible. She had been flendishly outraged, and to make the crime even more diabolical, if possible, the act in the opinion of the physicians, was perpetrated after life was extinct. In the midst of the intense excitement suspicion seemed to center on a half-witted fellow named Johnson, a son of the gentleman on whose premises the dead body was found, but no evidence was brought out before the late of the girl of the grant of the gentleman on whose premises the dead body was found, but no evidence was brought out before the late guilty one. The Wash, "alon National Intelligencer (Administration ergan) has the following:

Nothing definite has been determined upon as to the course to be pursued with respect to the contumacy of Gen. Sheridan, though has matter will doubtless engage the immediate and decisive a tion of the Chief Magistrate upon his resuming the labors of his post.

The suggestion of Gen. Speech "An to remove Sheridan is regarded by some as inopportant," if not impertinent. The impression is general and using the decision of the Commoder at Louislana must involve grave consequences to that ran to officer. Gen. Grant who is known to have a fervent friendship for Sheridan, is said to have read the report, Addressed to himself, for the first time on Sunday mort. Mag in The subingtion Chrowicle, with painful regret and mortification. A high authority in military law decisares that Gen. Grant himself condictional a grave 'exhitical effense should he suffer a subordinate to address to him an espersion upon his superior, without prompt and stern reproof, especially where the superior is the civil xuler of the State, and the aspersion is upon his civil and political integrity and competency. Learned gentlemen doubt the power, consistently with the discipline of the army, of the President to forgive the offense until after the finding of a court-martial, or the reception of retractions, so humble as to be conclusive.

We understand that nothing whatever has been authorized to be published respecting Gen. Grant's reply to Gen. Sheridan's telegraphic dispatch in answer to the orders of the Government to extend the time of registration. It was not a letter that Gen. Grant received from Sheridan, as stated in some newspapers, but a telegram.

The rapid progress of the Union Pacific Railroad, now building week from Omaha, Nebraska, and forming, with its western connections, on unbroken line across the continent, attracts attention to the value of the Pirat Mortgage Bonds which the Company now offer to the public. The first Owner of the problem investors is, "Are these bonds secured?" Next, "Are they a profitable investment?" To reply in brief:

First: The early completion of the whole great line to the Pacific is as certain as any future business event can be. The Government great of over twenty million acres of land and fifty million dollars in its own bonds practically guarantees it. One fourth of the work is already done, and the track continues to be laid at the rake of twe miles a day.

Second: The Union Pacific Railroad bonds are usued upon what previded to be one of the most profitable lines of railroad in the country. For many years it must be the only line connecting the Atlantic and Pacific; and being without competition, it can maintain remunerative rates.

Third: Three hundred and seventy air miles of this road are finished, and failly equipped with aspots, locometives, cars. &c., and twe trains are

hily equipped with depots, locomotives, cars, &c., and two trains are faily running each way. The materials for the remaining 141 miles to the eastern base of the Rocky Mountains are on hand, and it is under con-

the road a good investment, and that some of the strewdest railroad but of the country have already paid in \$5,600,000 upon the stock (s
